## MATERIAL SAFETY DATA SHEET POTASSIUM IODATE

### *Section 1. Product Identification*

**Synonyms** : Iodic acid, potassium salt  
**CAS No.** : 7758-05-6  
**Molecular Weight** : 214.00  
**Chemical Formula** :  $KIO_3$

### *Section 2. Composition/Information on Ingredients*

CAS No	Ingredient	Percent
7758-05-6	Potassium Iodate	100%

### *Section 3. Hazards Identification*

#### Emergency Overview

**DANGER! STRONG OXIDIZER. CONTACT WITH OTHER MATERIAL MAY CAUSE FIRE. HARMFUL IF SWALLOWED OR INHALED. CAUSES IRRITATION TO SKIN, EYES AND RESPIRATORY TRACT. MAY AFFECT CENTRAL NERVOUS SYSTEM, BLOOD, AND KIDNEYS.**

**SAF-T-DATA<sup>(tm)</sup>** Ratings (Provided here for your convenience)

Health Rating: 2 - Moderate (Life)

Flammability Rating: 0 - None

Reactivity Rating: 3 - Severe (Oxidizer)

Contact Rating: 1 - Slight

Lab Protective Equip: GOGGLES & SHIELD; LAB COAT & APRON; VENT HOOD; PROPER GLOVES

Storage Color Code: Yellow (Reactive)

#### Potential Health Effects

**Inhalation:** May irritate the respiratory tract, with symptoms of coughing and possible shortness of breath.

**Ingestion:** May cause gastrointestinal upset with symptoms of abdominal pain, vomiting, and diarrhea.

Animal experiments suggest a potential for kidney and blood cell damage, similar to that of the bromates and chlorates.

# OMKAR Speciality Chemicals Limited

**Skin Contact:** Possible irritation or reddening of moist skin on prolonged contact.

**Eye Contact:** No adverse effects expected but dust may cause mechanical irritation.

**Chronic Exposure:** Repeated ingestions may cause kidney dysfunction or failure and blood conditions such as hemolysis. Central nervous system may be affected.

**Aggravation of Pre-existing Conditions:** Persons with impaired liver or kidney function may be more susceptible to the effects of this substance.

## *Section 4. First Aid Measures*

**Inhalation:** Remove to fresh air. Get medical attention for any breathing difficulty.

**Ingestion:** Induce vomiting immediately as directed by medical personnel. Never give anything by mouth to an unconscious person.

**Skin Contact:** Wash exposed area with soap and water. Get medical advice if irritation develops.

**Eye Contact:** Wash thoroughly with running water. Get medical advice if irritation develops.

## *Section 5. Fire Fighting Measures*

**Fire:** Not combustible but enhances the combustion of other substances. Strong oxidizing agent, can release gaseous oxygen when heated.

**Explosion:** May explode when exposed to mechanical shock or friction or can cause explosions with combustible or flammable materials or powdered metals.

**Fire Extinguishing Media:** Use any means suitable for extinguishing surrounding fire.

**Special Information:** In the event of a fire, wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full facepiece operated in the pressure demand or other positive pressure mode. Water spray may be used to keep fire exposed containers cool.

## *Section 6. Accidental Release Measures*

Remove all sources of ignition. Ventilate area of leak or spill. Wear appropriate personal protective equipment as specified in Section 8. Spills: Clean up spills in a manner that does not disperse dust into the air. Use non-sparking tools and equipment. Reduce airborne dust and prevent scattering by moistening with water. Pick up spill for recovery or disposal and place in a closed container.

## *Section 7. Handling and Storage*

Store in a tightly closed container. Store in a cool, dry, ventilated area away from sources of heat, moisture, and incompatible substances. Protect container from physical damage. Avoid dust formation and control ignition sources. Employ grounding, venting and explosion relief provisions in accord with accepted engineering practices in any process capable of generating dust and/or static electricity. Empty only into inert or non-flammable atmosphere. Emptying contents into a non-inert atmosphere where flammable vapors may be present could cause a flash fire or explosion due to electrostatic discharge. Containers of this material may

# OMKAR Speciality Chemicals Limited

be hazardous when empty since they retain product residues (dust, solids); observe all warnings and precautions listed for the product.

## ***Section 8. Exposure Controls/Personal Protection***

**Airborne Exposure Limits:** None established.

**Ventilation System:** A system of local and/or general exhaust is recommended to keep employee exposures as low as possible. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at its source, preventing dispersion of it into the general work area. Please refer to the ACGIH document, *Industrial Ventilation, A Manual of Recommended Practices*, most recent edition, for details.

**Personal Respirators (NIOSH Approved):** For conditions of use where exposure to dust or mist is apparent and engineering controls are not feasible, a particulate respirator (NIOSH type N95 or better filters) may be worn. If oil particles (e.g. lubricants, cutting fluids, glycerine, etc.) are present, use a NIOSH type R or P filter. For emergencies or instances where the exposure levels are not known, use a full-face positive-pressure, air-supplied respirator. **WARNING:** Air-purifying respirators do not protect workers in oxygen-deficient atmospheres.

**Skin Protection:** Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls, as appropriate, to prevent skin contact.

**Eye Protection:** Use chemical safety goggles. Maintain eye wash fountain and quick-drench facilities in work area.

## ***Section 9. Physical and Chemical Properties***

<b>Appearance</b>	:	White to off white crystalline powder.
<b>Odor</b>	:	Odorless.
<b>Solubility</b>	:	soluble in 15 parts of water
<b>Density</b>	:	3.89
<b>pH</b>	:	No information found.
<b>% Volatiles by volume @ 21C (70F):</b>	:	0
<b>Boiling Point</b>	:	Not applicable.
<b>Melting Point</b>	:	560C (1040F) (partial decomposition)
<b>Vapor Density (Air=1):</b>	:	No information found.
<b>Vapor Pressure (mm Hg):</b>	:	No information found.
<b>Evaporation Rate (BuAc=1):</b>	:	No information found.

## ***Section 10. Stability and Reactivity***

**Stability:** Stable under ordinary conditions of use and storage. Strong oxidizing characteristics appear when mixed with acid solutions.

# OMKAR Speciality Chemicals Limited

**Hazardous Decomposition Products:** Burning may produce toxic iodine vapors.

**Hazardous Polymerization:** Will not occur.

**Incompatibilities:** Reacts violently with combustible and reducing materials; aluminum, organic compounds, carbon, hydrogen peroxide, sulfides.

**Conditions to Avoid:** Heat, shock, friction, incompatibles.

## Section 11. Toxicological Information

No LD50/LC50 information found relating to normal routes of occupational exposure.

Ingredient	Known	Anticipated	IARC Category
Potassium Iodate (7758-05-6)	No	No	None

## Section 12. Ecological Information

**Environmental Fate:** No information found.

**Environmental Toxicity:** No information found.

## Section 13. Disposal Considerations

Whatever cannot be saved for recovery or recycling should be managed in an appropriate and approved waste facility. Although not a listed RCRA hazardous waste, this material may exhibit one or more characteristics of a hazardous waste and require appropriate analysis to determine specific disposal requirements. Processing, use or contamination of this product may change the waste management options. State and local disposal regulations may differ from federal disposal regulations. Dispose of container and unused contents in accordance with federal, state and local requirements.

## Section 14. Transport Information

**Domestic (Land, D.O.T.)**

**Proper Shipping Name:** OXIDIZING SOLID, N.O.S. (POTASSIUM IODATE)

**Hazard Class:** 5.1                      **UN/NA:** UN1479                      **Packing Group:** II

**Information reported for product/size:** 25KG

**International (Water, I.M.O.)**

**Proper Shipping Name:** OXIDIZING SOLID, N.O.S. (POTASSIUM IODATE)

**Hazard Class:** 5.1                      **UN/NA:** UN1479                      **Packing Group:** II

**Information reported for product/size:** 25KG

**Australian Hazchem Code:** 1WE

**Poison Schedule:** None allocated.

**WHMIS:**

This MSDS has been prepared according to the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all of the information required by the CPR.

## Section 16 Other Information

This document is intended only as a guide to the appropriate precautionary handling of material by a person trained in chemical handling. The user is responsible for a determine the precautions & dangers of this chemical for his or her particular application depending on usage. Adequate protective clothing, including eye / face guards, approved respirators must be used to avoid contact with the material or breathing chemical vapors' / fumes. Exposure to this product may cause adverse health effects. This chemical may interact with other substances. Since the potential uses are so varied,

# OMKAR Speciality Chemicals Limited

M/s. Omkar Speciality Chemicals Ltd. cannot warn of all of the potential dangers of use or interaction with chemicals of materials. M/s. Omkar Speciality Chemicals Ltd. warrants that, the chemical meets the specifications set forth on the test report. M/s. Omkar Speciality Chemicals Ltd. Disclaims any other warranties expressed or implied with regard to the product supplied hereunder its merchantability or its fitness for a particular purpose.

The user should recognize that, this product can cause severe injury, especially if improperly handled or the known dangers of use are not heeded. Read all precautionary information's.
